## We look forward to hearing from you

Please put all your questions into the questions section with this icon.

## Agenda

**Commercial New Construction Pathways** 

## What is NHSaves?

NHSaves is a collaboration of New Hampshire's electric and natural gas utilities working together to provide NH customers with information, incentives, and support designed to save energy, reduce costs, and protect our environment statewide.

Powered by:

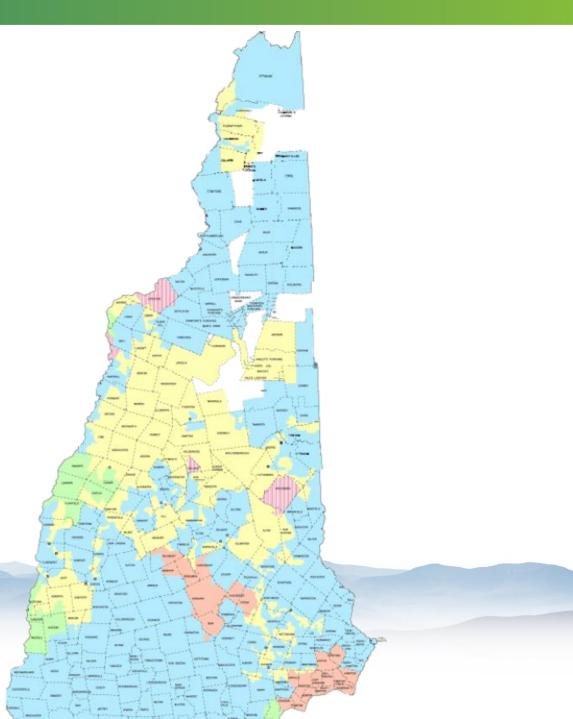

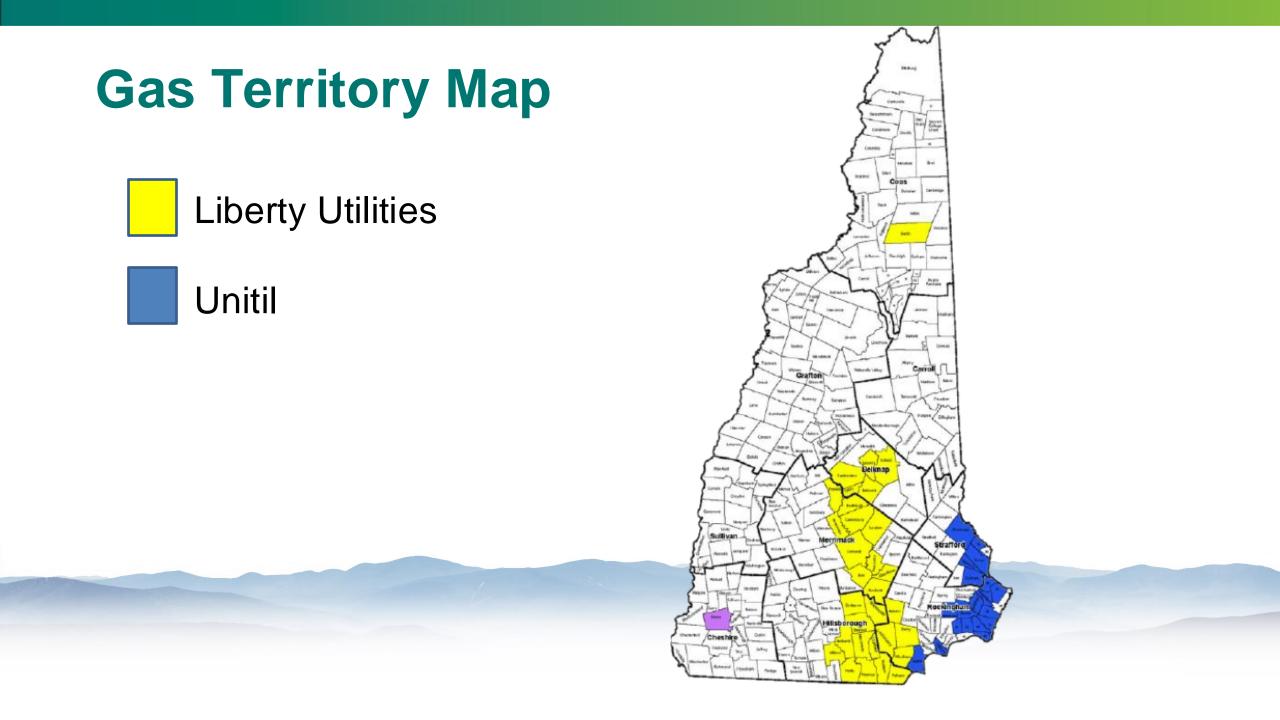

## **Electrical Territory Map**

Eversource
Liberty Utilities
New Hampshire Electric Co-op
Unitil

### **Zero Net Energy Building**

## Buildings that produce as much energy as they consume over a year

Heat pumps, LED lighting, improved insulation – lead to lower building energy needs that can be offset by solar energy production

### **EUI** (Energy Use Intensity)

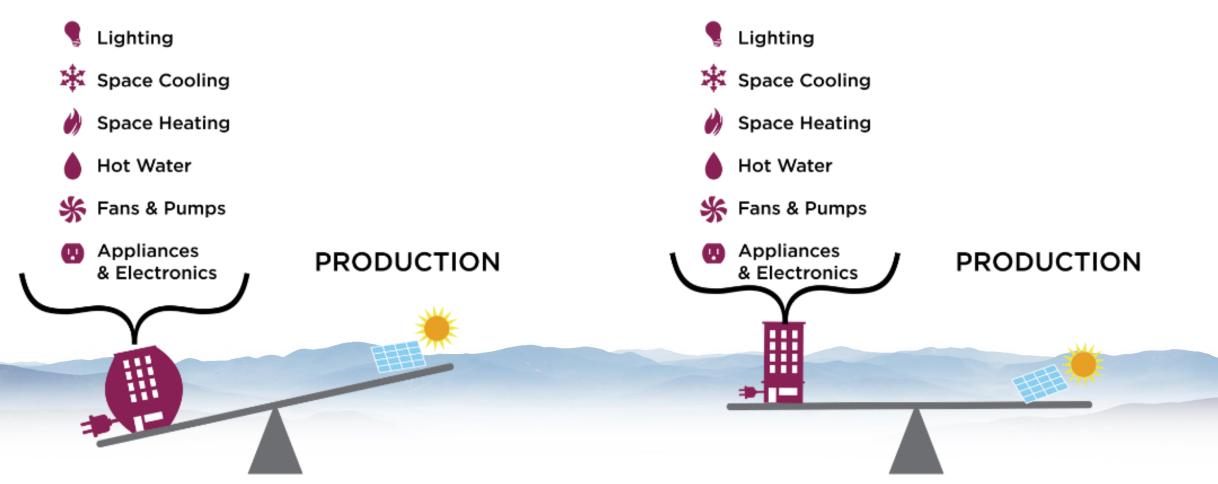

## A measure of a building's total annual energy use divided by its square footage (Annual kBtu/sf)

Similar to a miles per gallon metric, but for buildings

## **Understanding Zero Net Energy Buildings:**

Finding the Right Balance & Optimization

#### CONSUMPTION

CONSUMPTION

## **2025 New Building Major Renovation Participation Pathways**

## When Should Customers/Design Teams Reach Out?

#### Intent

• Drive projects toward ZNE and low EUI in operation

#### Requirements

- Engage utility ideally during the project's feasibility or conceptual design phases but before 50% Schematic Design
- ZNE, Zero Net Ready
- Minimum 10,000 sf heated and cooled space
- Achieve Target EUI or lower
- Year-round occupancy

#### **Post Occupancy**

- Participation required through 1 year post-occupancy period
- Final incentives based on performance

#### **Technical Assistance**

 ZNE expert provided – participates from feasibility through design development

#### Incentives

- Pre-approval at end of design based on design team's model
- Construction incentives: paid at end of construction
- Post-occupancy incentives: paid after post-occupancy period

	EUI by Building Type		
Buildin	д Туре	Net Zero Site EUI Target	
Hc	otel	35	
K-	12	25	
Library		30	
Office		30	
Fire/Polic	e Station	35	
Site S	pecific	Case by case	

Engage Early – During Concept, Feasibility or early Schematic Design is best

Customer Incentives					
Construction Incentive	Paid if project design achieves target EUI	\$1.50/sf			
Post Occupancy Incentive	Available after 1-year post-occupancy period if project achieves target EUI	\$1.00/sf			
Technical Assistance	Cost share with customer	up to \$10,000			

Please note: All incentives are subject to funding availability. Certain caps and restrictions may apply.

## **Example – Oyster River Middle School**

- Engaged Schematic Design
- Target site EUI:
- Design Charrette & energy modeling
- 147,000 Square feet
- Geothermal heating/cooling
- Walls R-34, Roof R-60

## **High-Performance Buildings**

#### Intent:

• Reduce building energy - comprehensiveness

#### **Technical Assistance:**

- Expert support in identifying energy conservation strategies
- Energy charrette, Mid Design Review, Completion of Whole Building tool

#### **Typical Projects:**

- Customers with fast-paced projects where they do not wish to set and pursue an EUI target
- Projects that are not whole buildings
- Projects where heavy process loads are the major energy savings focus
- Projects engaging too late in design
- Projects must be greater than 5,000 square feet

## **High-Performance Buildings**

### **High-Performance Buildings**

Customer Incentives				
Incentive Type	Rate			
Electric	\$0.40/kWh			
Natural Gas	\$2.00 therm			
Technical Assistance	100%			

## **Prescriptive Systems**

#### Intent

- Projects in advanced design
- Optimize equipment and systems for energy efficiency.

#### Requirements

- Whole buildings projects if they engage Sponsors after the end of design development (late engagement)
- Partial building projects

#### **Technical Assistance**

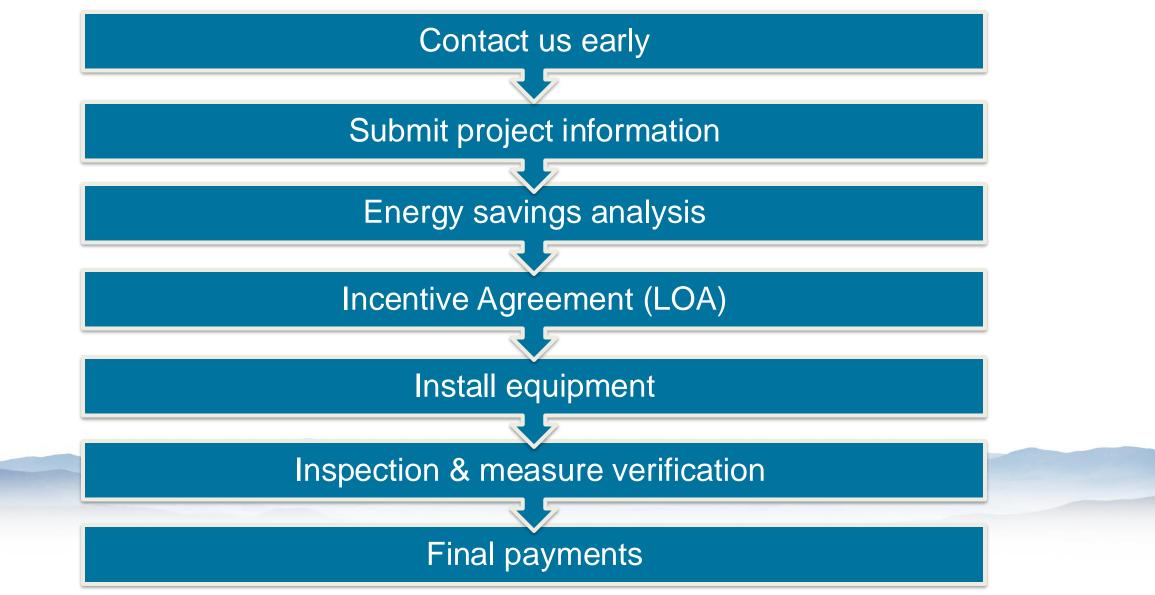

Case by case for custom measures

#### Incentives

- Prescriptive and custom applications
- Incentives paid upon construction verification

## **Submittal Process**

## Residential & Multifamily New Construction Program

## **Residential New Construction Programs**

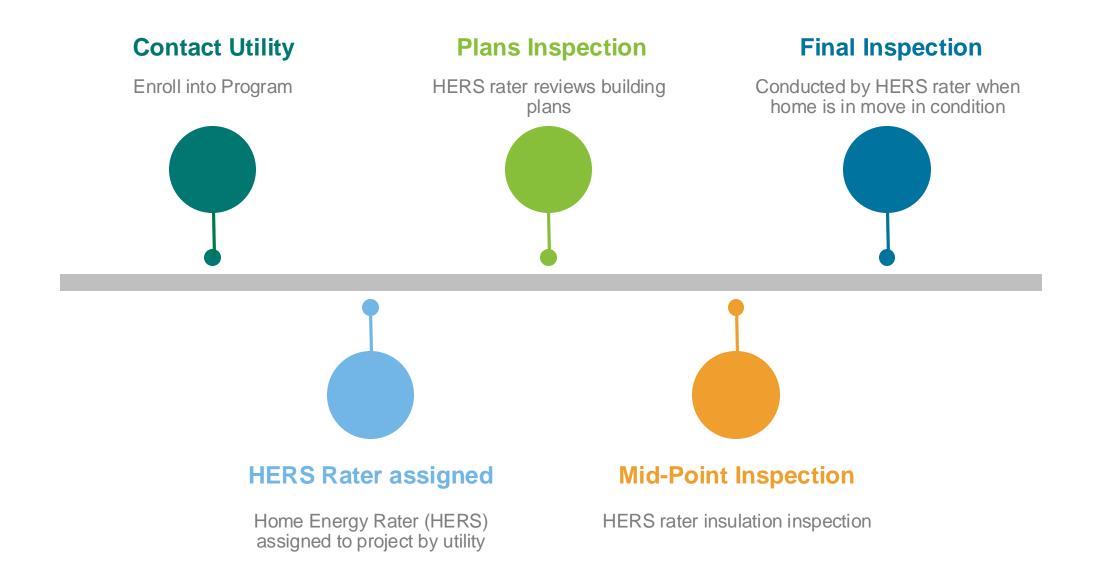

## **Residential New Construction Programs**

NH average ENERGY STAR<sup>®</sup> participant home is 20-30% more energy efficient than required by code.

- ENERGY STAR Homes a nationwide effort to make new homes more energy efficient.
- Single Family & Multifamily
- Two Different "Tracks"
  - 1. Drive to ENERGY STAR
  - 2. ENERGY STAR certified
- Net Zero Home Competition
- Up to \$10,000 in rebates
   Effective Insulation Systems
   High-Performance Windows
   Tight Construction and Ducts
   Efficient Heating and Cooling Equipment
   ENERGY STAR Qualified Lighting and Appliances
   3 INSPECTIONS and CERTIFICATION
   www.nhsaves.com/newhome

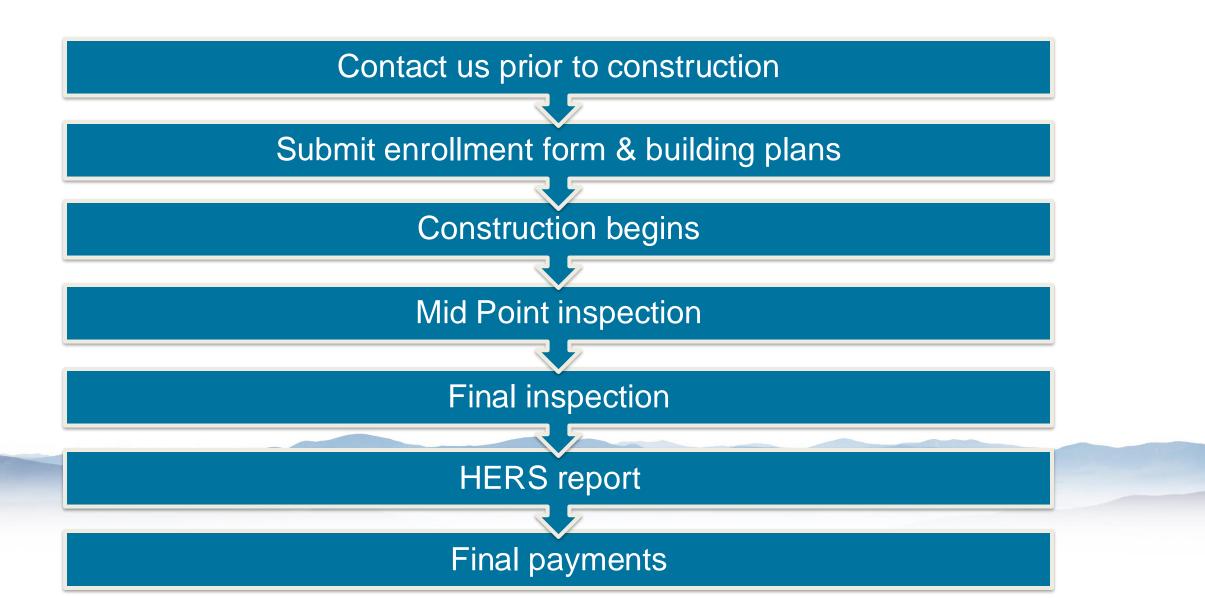

## **Home Energy Rater Process**

## **Residential New Construction Incentives**

Incentives	Single Family	Condominiums	Multifamily
Base HERS Index Rebate	\$1,500	\$1,000	\$500
HERS point below index Incentive (1-10)	\$100	\$100	\$100
HERS Points Incentive (11-20)	\$250	\$250	-
HERS Points Incentive (21-30)	\$500	-	-
HERS Points Incentive (31+)	\$1,000	-	-
ENERGY STAR Refrigerators	\$25	\$25	\$25
ENERGY STAR Clothes Washers	\$25	\$25	\$25
ENERGY STAR Clothes Dryers	\$25	\$25	\$25
Maximum Rebate	\$10,000	\$4,000	\$1,500
Additional - ENERGY STAR Certification Bonus	\$500	\$250	\$250
HERS Rating and Testing	Free	Free	Free

## **Residential Submittal Process**

## **Drive to Net Zero Challenge**

- Beyond ENERGY STAR<sup>®</sup> Homes
- Rewards for Top 3
  - 1st Place \$5,000
  - 2nd Place \$2,000
  - 3rd Place \$1,000

#### Competition criteria categories

- Lowest HERS prior to renewables
- Overall HERS Index
- Homes estimated annual operating cost
- Cost per square foot
- Technological innovation

#### Marketing

- Banquet
- Press releases
- Video
- <u>nhsaves.com/programs/about-the-net-zero-competition/</u>
