

# Incentives Available for Commercial Water Heater Sales in New Hampshire!

EFFECTIVE JANUARY 1, 2025

Your purchase is eligible for an incentive off the purchase price if:

- 1 Equipment will be installed for commercial use at a site that has a commercial or industrial service account with one of the NHSaves sponsors per the tables below\*
- 2 The sale is not already receiving an incentive through another program

\*Incentives are also available to qualifying customers in Massachusetts and Rhode Island

## How to Receive an Incentive

To receive an incentive that reduces the initial equipment purchase cost of your water heater, ask your contractor to reach out to a participating distributor (see back). Your contractor must provide the installation address and site information for the water heating equipment to the distributor to obtain the incentive. Sales are subject to installation verification.

### LIBERTY NH AND UNITIL GAS TERRITORY ONLY

| Natural Gas Water Heater              | Input Rating | Required Efficiency                                     | Customer Incentive |
|---------------------------------------|--------------|---------------------------------------------------------|--------------------|
| Storage                               | ≥ 75 Mbtuh   | Thermal Efficiency ≥ 94%                                | \$2/Mbtuh          |
| Tankless                              | < 200 Mbtuh  | Energy Factor ≥ 0.94 or<br>Uniform Energy Factor ≥ 0.91 | \$1/Mbtuh          |
| Volume<br>(Domestic Hot Water Boiler) | ≥ 75 Mbtuh   | Thermal Efficiency ≥ 94%                                | \$2/Mbtuh          |
| Indirect                              | N/A          | N/A                                                     | \$200/unit         |

  

| Equipment                 | Fuel Type   | Required Efficiency | Customer Incentive |
|---------------------------|-------------|---------------------|--------------------|
| High-Speed Clothes Washer | Natural Gas | > 200G              | \$4/lb. capacity   |
