Best Practices

Consider placement

Read the accompanying product manual to determine placement and varying factors to achieve your product's optimal operating performance.

Check your room size

Be sure to consider the square footage of the room where you will place the unit. Larger models use more energy, so choose a model that is sized appropriately to fit your room.

Incomplete information will delay or disqualify rebate payment. Please allow six to eight weeks for application processing. For more information, to confirm eligibility or to check the status of your rebate, call **888-855-0285** or email NHRebates@resource-innovations.com.
