

Packaged Terminal Heat Pumps (PTHP)

\$500 Instant Incentive

Effective for sales made April 1, 2026 - December 31, 2026

Packaged Terminal Heat Pump Benefits

- ✓ Qualifying Package Terminal Heat Pumps (PTHP) are up to 3.5 times as efficient as standard electric resistance Packaged Terminal Air Conditioner (PTAC) units
- ✓ Replacing standard electric resistance PTAC units with high efficiency PTHPs can provide significant energy savings

Equipment Eligibility

- ✓ $\leq 10,000$ Btuh, ≥ 12.1 EER and 3.5 COP
- ✓ $> 10,000$ Btuh, ≥ 10.7 EER and 3.1 COP

Customer Eligibility

- ✓ Equipment must be sold for installation at a facility that pays a commercial or industrial rate for electricity from an NHSaves[®] utility partner (Eversource, New Hampshire Electric Co-op, or Unitil) in New Hampshire; municipal electric customers are ineligible
- ✓ Sales of 10 or more units to one installation location must receive pre-approval to guarantee the incentive
- ✓ Must not already be receiving incentives through another program
- ✓ Units receiving incentives are for immediate install only and are not to be used for back up stock
- ✓ Onsite inspections may be required
