

**Efficiency is the
key to lowering your
energy bills.**

Home Energy Assistance

The Home Energy Assistance program offered through your NHSaves® utility partners is designed to help our state's income-eligible homeowners and renters reduce energy costs, optimize home energy performance and make their homes safer and more comfortable.

HOW DOES IT WORK?

If you qualify, the program will cover 100% of the cost to weatherize your home or apartment and replace inefficient equipment.

Income-eligibility is determined by total household income and the number of people in your household. The Community Action Agency in your county can help you determine if you qualify.

WHAT DOES THIS MEAN FOR YOU?

The Home Energy Assistance program provides many benefits to income-eligible New Hampshire residents. Typical efficiency improvements include:

- Sealing air leaks and adding insulation
- Upgrading lighting, appliances and water heating equipment
- Improving heating and cooling systems

HOW TO GET STARTED

1

Find your Community Action Agency by visiting
NHSaves.com/HEA_Contact

2

See if your home qualifies.
